

BRANSON

Converter / Transducer 4TP

20Khz

Technical Data

| | |
|--------------|----------------------------------|
| ◆ Model | Branson Converter/Transducer 4TP |
| ◆ Brand | Branson |
| ◆ EDP NO | 101-135-068 |
| ◆ Technology | Ultrasonic |
| ◆ Accuracy | Good |
| ◆ Efficiency | Excellence |
| ◆ Frequency | 20Khz |
| ◆ Power | 4000Watt |

Features:

- ◆ Genuine Branson OEM replacement converter
- ◆ Optimized for 20 kHz ultrasonic systems
- ◆ Delivers consistent amplitude and high energy efficiency
- ◆ Durable and thermally stable construction for continuous use
- ◆ Ensures strong, precise ultrasonic welds
- ◆ Easy installation and low maintenance design

Description:

- ◆ We offer the **Branson Converter/Transducer 4TP**, a genuine OEM replacement converter engineered for Branson 20 kHz ultrasonic welding systems. Designed for optimal performance and reliability, the 4TP converter ensures efficient energy transfer, consistent vibration output, and superior weld quality. Built with durable materials for long service life, it provides excellent thermal resistance and stability, making it ideal for ultrasonic welding, sealing, and cutting in industrial environments.
