

BRANSON

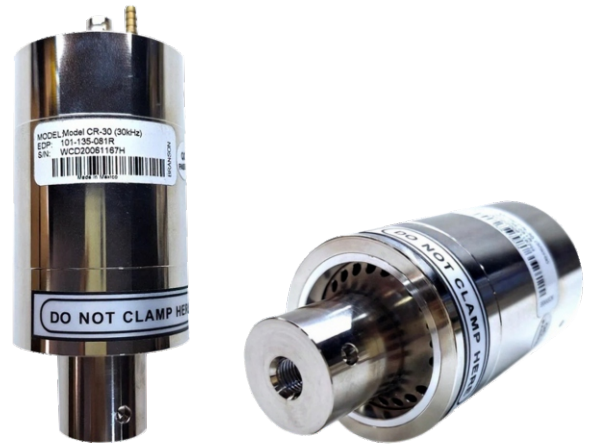

Converter / Transducer CR30

20Khz

Technical Data

◆ Model	CR30
◆ Brand	Branson
◆ EDP	101-135-081R
◆ Technology	Ultrasonic
◆ Accuracy	Good
◆ Efficiency	Excellence
◆ Frequency	20Khz
◆ Power	400Watt

Features:

- ◆ Genuine Branson OEM replacement converter
- ◆ Optimized for 20 kHz ultrasonic systems
- ◆ Provides stable vibration and high energy transmission
- ◆ Durable and thermally resistant for continuous operation
- ◆ Ensures consistent performance in industrial applications
- ◆ Easy to install and low maintenance design

Description:

- ◆ We offer the **Branson Converter/Transducer CR 30**, a genuine OEM replacement converter designed for Branson 20 kHz ultrasonic welding systems. Built to deliver high-performance energy conversion and consistent amplitude output, this converter ensures stable operation, superior weld quality, and long service life. Engineered with precision and durability, the CR 30 is trusted across industries for ultrasonic welding, cutting, and sealing applications.
