Website: www.ultrasonicweldingconverter.com

Technical Data

◆ Model	EDP-110-3168
◆ Brand	Dukane
◆ Technology	Ultrasonic
◆ Accuracy	Good
◆ Efficiency	Excellence
◆ Power	1000-3000 Watt
◆ Frequency	20Khz
◆ Weight	1.8 Kg

Features

- ◆ Genuine Dukane OEM replacement converter
- ◆ Piezoelectric crystal design for efficient ultrasonic energy transmission
- ◆ Optimized for 20 kHz frequency performance
- ◆ Provides superior vibration consistency and power stability
- ◆ Built for long life and continuous operation
- ◆ Easy installation and minimal maintenance requirements

Description

- ◆ We offer the **Dukane Piezoelectric Crystal Converter 110-3168**, a genuine OEM replacement component engineered for Dukane ultrasonic welding systems. This converter utilizes advanced piezoelectric crystal technology to deliver efficient energy transfer, high vibration stability, and consistent performance. Designed for demanding ultrasonic welding, cutting, and sealing applications, it ensures durability, precision, and long-term reliability in industrial environments.
