Technical Data

◆ Model	MS Ultraschall
◆ Brand	MS Ultraschall
◆ EDP NO	586633.0
◆ Technology	Ultrasonic
◆ Accuracy	Good
◆ Efficiency	Excellence
◆ Frequency	35Khz
◆ Power	1000Watt

Features:

- ◆ Genuine MS Ultraschall OEM replacement converter
- ◆ Optimized for 35 kHz frequency and 1000 W output
- ◆ Superior vibration stability for consistent, precise welds
- ◆ High thermal resistance for continuous operation
- ◆ Rugged construction and easy installation
- ◆ Trusted performance in ultrasonic production systems

Description:

- ◆ We offer the **MS Ultraschall Converter / Transducer 586633.0 (35/1000L)**, a high-quality OEM component designed for MS Ultrasonic systems. Engineered for precision, efficiency, and long-term durability, this converter provides consistent vibration output and optimal energy transmission for reliable ultrasonic welding, sealing, and cutting performance in industrial environments.
